Election/Restrictions

Claims 1 and 10 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 9, 12, 14 and 23 are directed to the species of Embodiments II and III are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record neither shows nor suggests an illumination apparatus comprising all of the elements of claim 1 in combination including a light control member configured as in claim 1, a movement unit configured as in claim 1, a light selector control unit configured as in claim 1 and particularly:

"wherein the light selector control unit controls the lighting unit to cause an emitter to emit light when it is positioned in the vicinity of the light concentration area by the operation of the light control member."

Claims 10, 24 and 25 are allowed for the same reasons.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
